

AppLabs.nl

Worry-free Application Management as a Service. AppLabs provides Application Delivery as a Service. That helps organizations to keep application deployments and updates under control. All-inclusive. On demand and pro-active at your convenience. Fast, cloud based, fixed-price, quality guaranteed, no-cure-no-pay. Virtually Limitless resources at limited expenses.

Building on 20 years of experience and efficient processes and techniques, we analyze, classify, build and deliver the requested application software fast. This guarantees high quality Application Delivery as a Service - ADaaS.

AppLabs processes integrate with your local application management and deployment environment. You decide which applications are outsourced. For example at times when extra resources are required to make a deadline. Or outsource your complete application set, to achieve the most effective solution.

OFF SITE

Your AppLabs application packages are developed in the AppLabs Packagefactory at AIMED Solutions. Customers do not need to invest in knowledge, licenses, workspace, hardware and FTEs. We can have your AppLabs account up and running in 1 day. Flexible and convenient. Start now and find out.

EXPERIENCED

AppLabs is staffed by experienced, knowledgeable and certified engineers managed from our headquarters in 's-Hertogenbosch (NL). With a Dutch, English and German speaking helpdesk. High quality packages are delivered with guaranteed functionality Quality Approved. This valuable technology, which previously was only available to large enterprises is now also within reach of SMEs.

QUALITY

We make no distinction in pricing or quality levels. All packages undergo 100% extensive technical and functional testing, validation, conflict analysis and a detailed acceptance phase.

PERFORMANCE

Endless capacity and ultra-short delivery times.
Any Application, Any organization, Any Time.

FIXED PRICE

AppLabs is offered at a fixed price, so you know in advance exactly where you stand and what to expect. 100% satisfaction assured, no-cure-no-pay.
